5	<b>Read the passage and answer the questions.</b> COVID-19 is a disease caused by a new strain of coronavirus. 'CO' stands for corona, 'VI' for virus, and 'D' for disease.Symptoms can include fever, cough and shortness of breath. In more <b>severe</b> cases, infection can cause breathing difficulties. Some symptoms are similar to the flu (influenza) or the common cold, which are a lot more common than COVID-19. This is why testing is required to confirm if someone has COVID-19.The virus is transmitted through direct contact with respiratory droplets of an infected person (generated through coughing and sneezing). Individuals can also be infected from and touching surfaces contaminated with the virus and touching their face (e.g., eyes, nose, mouth). It is easy to take care of ourselves by doing some easy actions: ✓ staying home when sick; ✓ covering mouth and nose with flexed elbow or tissue when coughing or sneezing. Dispose of used tissue immediately; ✓ washing hands often with soap and water; and ✓ cleaning frequently touched surfaces and objects. <b>A. Answer the questions:</b>  <b>39.What is COVID-19?</b> <b>40. What are the symptoms of COVID-19 ?</b> <b>41. Write some actions to prevent disease?(two)</b> <b>42."severe " in line 2 means:.....</b> <b>43. The virus is transmitted through direct contact with respiratory droplets of an ..... person.</b>	13
