When you are new to English, a monolingual dictionary is not very helpful by itself. A good English to Persian English, however, may be a better choice than a translator.

You can buy a pocket dictionary, download app on your phone, or use a good online dictionary.

Word reference.com currently has 18 two-language dictionaries, many of which have detailed information about grammar, pronunciation formality, UK/US variations, and example sentences. They also have a forum where you can ask and answer language questions.

As you become more confident with English, using a good English to Persian dictionary can give you even more detailed information, can help you to think in English instead of always translating in your mind. You can also use it with an advanced dictionary to deepen your understanding. Again, you can buy a hard copy, download an app, or use a good online dictionary. These online dictionaries also have learner versions, with simpler language.

Mother Teresa was a kind and dedicated woman who spent her life helping the world's poorest people. Her real name was Agnes. Since she was 12, she chose a religious life.

she became a nun at the age of 18 and first traveled to Ireland to study religious subjects. Then she went to India to continue her education. She started teaching young girls from the poorest family. She went to the poorest area of Calcutta and spared no pains to help the poor who lived there.
