Read the following passage and answer the questions.

Reading

A language is a system of sounds and gestures for communicating and exchanging knowledge, beliefs, wishes, and feelings. There are around 7000 languages in the world.

Many deaf people around the world use body language (a language that uses movement of the hands). As you know language are always changing, but they change very slowly.

Word order is more important in English than it is in some languages such as Russian. People invent new words for their languages, borrow words from other languages and change the meaning of words as needed.

Chinese is the most popular language in the world. It has more than one billion speakers. Scientists say that the world loses a language every two weeks and half of the world languages will die in the next 100 years if we don't do anything.
