B Read the passage and then answer the questions:

Why is music important? Although math and sciences are important subjects for students to learn and master, music is also crucial for students to achieve a well-rounded education. Here are 6 reasons from 20.

1. **Musical training helps develop language and reasoning:** Students who have early musical training will develop the areas of the brain related to language and reasoning. The left side of the brain is better developed with music, and songs can help imprint information on minds.
2. **A mastery of memorization:** Even when performing with sheet music, student musicians are constantly using their memory to perform.
3. **A sense of achievement:** Learning to play pieces of music on a new instrument can be a challenging, but achievable goal. Students who master even the smallest goal in music will be able to feel proud of their achievement.
4. **Emotional development:** Students of music can be more emotionally developed, with empathy towards other cultures. They also tend to have higher self-esteem and are better at coping with anxiety.
5. **Music builds imagination and intellectual curiosity:** Introducing music in the early childhood years can help foster a positive attitude toward learning and curiosity. Artistic education develops the whole brain and develops a child's imagination.
6. **Music can be relaxing:** Students can fight stress by learning to play music. Soothing music is especially helpful in helping kids relax.

48. How can music develop language and reasoning?

49. How can music give children a sense of achievement?

50. Why can introducing music in childhood be helpful?

T / F

51. Stress in kids will be lowered by listening a soothing music.

52. Sheet music doesn't do so much for students' memory.

Good Luck
